TAM panels

type full grit & type polished

TAM type: polished

TAM 146040-1 mirror chrome plate
with certificate and picture

Art.-Nr. G21 L

Ra = 0,15 Micrometer

polished surface
surface colour = silver

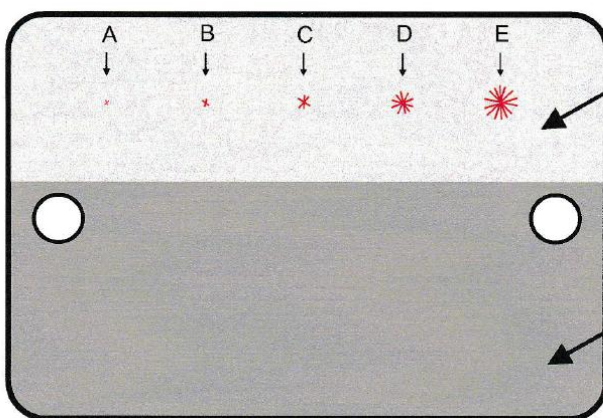

Ra = 1,5 Micrometer

Roughness area
grit blasted with aluminium oxide
grit size = 120, pressure = 80 P.S.I.

TAM Type: full grit

TAM 146040-2 grit blasted all over
with certificate and picture

Art.-Nr. G21-1 L

Ra = 0,7 Micrometer

grit blasted with aluminium oxide
grit size = 220, pressure 80 P.S.I.
surface colour = grey

Ra = 1,5 Micrometer

Roughness area
grit blasted with aluminium oxide
grit size = 120, pressure = 80 P.S.I.
